Subject: Application 10/656,144 Filing Date 09/08/2003 Confirmation No. 1363

Re: Response to Examiners Action of September 2, 2004

Dear Mr. Richter,

Per our phone conversation this date:

--Regarding Claim 9 as objected to; please delete the words "or Claim 8" from Claim 9 of the Application. Claim 9 should now read:

The heat engine as claimed in Claim 1, in which thermal energy is injected into the periodic acoustical traveling waves via the first heat exchanger-waveguide means in order to amplify the temperature and pressure gradients of said periodic acoustical traveling waves with respect to the static working fluid through which they are propagating.

--Regarding Claim 20 as rejected; please omit/delete Claim 20 in its entirety from the Application.

I understand that these actions will correct the deficiencies in the Application. Thank you for your help.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Oscar L. Fellows', is written over a horizontal line.

DETAILED ACTION

Claim Objections

1. Claim 9 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim *cannot depend from any other multiple dependent claim*. See MPEP § 608.01(n). Accordingly, the claim has not been further treated on the merits.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 20 is rejected under 35 U.S.C. 102(e) as being anticipated by Corey. See Fig. 5B of Corey, and the accompanying description in the specification.

Allowable Subject Matter

4. Claims 1-8 and 10-19 are allowed.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
